HOISTS

# UTILITY PRODUCTS

VERSATILE. DURABLE. RELIABLE.

Whether repairing overhead power lines after a storm or performing routine maintenance on an electric power distribution system, Columbus McKinnon hoists and rigging products can help. With nearly 150 years of industry experience and well-known brands such as Little Mule® and Coffing® Hoists, we offer a large selection of products developed specifically for the needs of the utility industry.

## LITTLE MULE® WIRE GRIPS

Economical wire grips from Little Mule are designed to keep workers safe, while allowing them to efficiently get the job done.

Easy-to-use Little Mule wire grips can be used with a variety of wire sizes and types, so fewer grip changes are required. They also have large handle eye openings for easy opening, attaching, and releasing to prevent lock ups. Made of forged steel, Little Mule grips are both durable and lightweight, making them ideal for a variety of utility jobs.

- Hot line models available
- **Most models are in stock and ready to ship within 2-3 business days**

## LITTLE MULE® LINEMAN'S STRAP HOIST

The Little Mule Lineman's Strap Hoist is the preferred hoist of utility industry professionals. This strap hoist is designed for rugged use with dependability in mind and features a non-conductive handle available with a hot stick ring, if needed. The solid fiberglass handle, with replaceable tip, also has a built-in overload feature that allows the handle to bend, alerting the operator of a possible overload. Hoist is available in capacities up to 3 tons with hot line model configurations available.

## COFFING® G SERIES RATCHET LEVER HOIST

Coffing G Series ratchet lever hoists, developed by Fred R. Coffing, the inventor of roller chain hoists, are the original roller chain hoists. Built for efficiency and durability, the hoist's unique roller chain can be spliced to create longer lifts and can handle higher capacities than coil chain. G Series hoists are ideal for utility transmission and distribution work. Available in capacities up to 15 tons.

## COFFING® LSB-NC RATCHET LEVER HOIST

Built on proven technology and decades of engineering expertise, the Coffing LSB-NC is designed for safety, strength, and reliable performance - and it's made in the USA with domestic and imported parts at our facility in Wadesboro, NC. With American-made hooks, chain, and other key components, these ratchet lever hoists are lightweight and durable, making them ideal for any utility application. Available in capacities up to 6 tons.

## UTILITY ACCESSORIES BY DIXIE INDUSTRIES®

Serving the market for over 100 years and made of high-quality materials, Dixie Industries brand utility accessories, such as pole tongs, pike poles, cant hooks, and peavies, are used throughout the utility industry to move, roll, slide, or float poles into position.
